

# **TRACKWISE DIGITAL<sup>®</sup> QUICKTRACK**

**Honeywell**

# PROVEN QUALITY MANAGEMENT. SIMPLIFIED IMPLEMENTATION.

**TrackWise Digital QuickTrack** is a streamlined solution and delivery approach designed specifically for startups, small, and medium-sized life sciences businesses. Built on the trusted Salesforce platform and with out-of-the-box templates based on over three decades of quality expertise, TrackWise Digital QuickTrack delivers the power of enterprise QMS without the complexity or cost—getting you compliant and operational faster.

## DESIGNED FOR GROWING LIFE SCIENCES COMPANIES

TrackWise Digital QuickTrack eliminates the traditional barriers that keep emerging companies from accessing robust digital quality systems. With pre-configured modules, minimal implementation effort, and affordable pricing optimized for growing organizations, you can transform your quality operations from day one from day one following go-live.

## ACCELERATE TIME TO VALUE

The out-of-the-box configuration minimizes customization and accelerates implementation, so you can quickly realize the value of your new digital system and shift your focus to innovation and growth.

## REDUCE TOTAL COST OF OWNERSHIP

Get predictable, affordable pricing designed for smaller teams. Cloud-based deployment eliminates infrastructure costs, while pre-validated processes reduce the burden on your internal resources.

## SCALE AS YOU GROW

Set up your foundational quality system with TrackWise Digital QuickTrack, then add advanced capabilities, such as artificial intelligence,

agents, and automations, as your business expands. TrackWise Digital QuickTrack establishes you on a proven, enterprise-grade platform—ready to scale when you are so you never “outgrow” your system.

## SUPPORT REGULATORY COMPLIANCE

Establish quality processes that support regulatory readiness. Pre-configured best practice templates, 21 CFR Part 11 compliance support, electronic signatures, and comprehensive audit trails prepare you for FDA, EMA and

global regulatory requirements as you advance toward commercialization.

## MINIMIZE SYSTEM DEPLOYMENT RISKS

Do not compromise on your delivery and ongoing support experience. Partner with an experienced project team, customer success manager, customer admin training resources, and technical support representatives—all included in the TrackWise Digital QuickTrack package.

# COMPREHENSIVE QUALITY MODULES

TrackWise Digital QuickTrack includes fully integrated modules to manage your end-to-end quality processes in one centralized, validated platform.

## CORE QUALITY MANAGEMENT SYSTEM (QMS)

Manage critical quality processes with intelligent workflows that streamline reviews and accelerate issue resolution.

- **Quality Events (e.g. Deviations & Nonconformances)** – Track, investigate and resolve quality events with efficient workflows and trend analysis
- **Corrective and Preventive Action (CAPA)** – Leverage integrated CAPA management with automated routing, notifications and approvals
- **Change Control** – Manage changes from request through approval, execution and implementation
- **Audit Management** – Automate the entire audit lifecycle with powerful workflow, planning, and tracking capabilities

## DOCUMENT MANAGEMENT SYSTEM (DMS)

Centralize content in a controlled, audit-trailed environment that promotes collaboration and supports everyone working from a single version of truth. The DMS module provides an organized repository with search and compare capabilities, enabling you to find what you need quickly. Rule-based workflows streamline review, annotation, and approval processes, while document quality controls maintain version management and compliance.

## TRAINING MANAGEMENT SYSTEM (TMS)

Automate training policies and track regulatory requirements to support workforce readiness. Create and manage training plans for individual users and groups, schedule and

track activities through completion, and measure knowledge retention with built-in tests and assessments. Track compliance against due dates to maintain audit-readiness.

## COMPLAINT MANAGEMENT

Manage the complaint lifecycle from intake through investigation. The Complaint Management module connects complaint data to CAPA and other quality events, delivering insights that support continuous improvement and patient safety.

## SUPPLIER QUALITY MANAGEMENT

Consolidate and track relevant information for your suppliers and other external parties including audits, quality events, SCARs, approved suppliers and materials, documentation, agreements, certificates, etc.

# WHY TRACKWISE DIGITAL QUICKTRACK?

## PROVEN & INNOVATIVE TECHNOLOGY PLATFORM

Built on Salesforce's enterprise-grade security and stability, TrackWise Digital QuickTrack leverages native features including global compliance standards and robust access controls to keep your quality data protected. The modern, intuitive interface delivers a world-class user experience that promotes rapid adoption across your organization, while mobile access enables your team to manage quality processes on any device, anywhere, anytime.

With built-in data connectivity and third-party integrations, TrackWise Digital QuickTrack offers flexibility, configurability, and scalability to grow with your business—with a clear

path to adopt innovative capabilities like artificial intelligence, intelligent agents, and advanced automations as your organization matures.

## TRACKWISE DIGITAL QUALITY PROCESS ACCELERATORS (QPAS)

Pre-configured quality processes built on decades of experience enable quick implementation, standardize on best practices, simplify validation and accelerate time to value.

## PARTNERSHIP FROM INITIAL DELIVERY THROUGH ONGOING SUPPORT

TrackWise Digital QuickTrack includes comprehensive implementation and support services as part of your

investment. You'll receive a dedicated multi-person project management and delivery team to get you up and running quickly, plus ongoing resources to enable your success: system administrator access to the TrackWise Academy Customer Enablement Platform for continuous learning, a dedicated Customer Success Manager to guide your quality journey, and technical support to keep your system running smoothly.

# TRACKWISE DIGITAL QUICKTRACK DELIVERS RESULTS

## CREATE POWERFUL BUSINESS INSIGHTS

Track and analyze quality data across all processes in real-time dashboards and reports. Make data-driven decisions that increase operational excellence at every stage of your product lifecycle.

## INCREASE WORKFORCE EFFICIENCY

Reduce errors and accelerate productivity with automated workflows, best practice processes, and collaboration tools that enable your team to work smarter.

## EXTEND YOUR CULTURE OF QUALITY

Build quality into your organizational DNA with communication and collaboration tools built into a centralized platform—from your team to suppliers and contract services.

## PROACTIVE QUALITY MANAGEMENT

Shift from reactive firefighting to proactive quality with integrated modules that work together, providing closed-loop tracking, reporting and visibility across all quality processes.

| FEATURE          | QUICKTRACK                                                                                   |
|------------------|----------------------------------------------------------------------------------------------|
| Deployment       | Cloud-based (Salesforce platform)                                                            |
| Users            | Please inquire based on your user needs.                                                     |
| Implementation   | Out-of-the-box, minimal configuration                                                        |
| Core Modules     | QMS (Deviation, Nonconformance, CAPA, Change Control, Audit Management), DMS, TMS            |
| Optional Modules | Complaint Management, Supplier Quality Management                                            |
| Compliance       | 21 CFR Part 11, FDA, EMA, ISO compliance-ready                                               |
| Support          | Dedicated implementation team, customer success & support, and system administrator training |

## READY TO TRANSFORM YOUR QUALITY OPERATIONS?

TrackWise Digital QuickTrack gives you the quality management foundation you need to support innovation, support compliance, and scale with confidence.
